

Schedule | Programme

Time Heure	Event Événement
9:45 – 10:00	Opening Statements Discours d'ouverture
10:00 – 10:45	Oral Presentations 1 Présentations orales 1
Nada El-Emadi	<i>"Cellular Mechanisms Driving Increased L. major infectivity via its Exosomes involve Macrophage FPR2 receptor."</i>
Yulia Alexandrova	<i>"Phenotypic and functional characterization of pulmonary mucosal CD8 T-cells in people living with HIV on long-term ART."</i>
Anastasiya Muntyanu	<i>"Elucidating Environmental Influence on Systemic Sclerosis in Canada: An Ecological Study."</i>
10:45 – 11:00	BREAK 1 PAUSE 1
	KEYNOTE : Dr. Hideki Ueno, MD, PhD
11:00 – 12:00	Department of Immunology, Kyoto University <i>"T follicular helper cell subsets in humans and their role in infectious disease."</i>
12:00 – 12:45	BREAK 2 PAUSE 2
12:45 – 14:00	Oral Presentations 2 Présentations orales 2
Shannon Duffy	<i>"Development of a mouse model of enterocolitis which is epidemiologically informed by Crohn's Disease"</i>
Mikhaël Attias	<i>"Local and Systemic Effects of PD-1 blockade on Treg Cell Functional Homeostasis"</i>
Anish Arora	<i>"Factors Affecting HIV Care Engagement for Migrants Living in OECD Countries: A Systematic Mixed Studies Review"</i>
George Dong	<i>"Vps36 plays a key role in vesicle secretion by Leishmania major and its disruption by CRISPR/Cas9 reduces infection severity"</i>
Monica Dallmann-Sauer	<i>"Single-cell profiling of Mycobacterium tuberculosis-stimulated alveolar macrophages from persons living with HIV"</i>
14:00 – 15:00	Poster Sessions (Q/A) Session des affiches (Q/R)
15:00 – 15:30	Awards and Conclusions Récompenses et conclusions
